

Q-CATCH HEAD GATE

PRODUCT CODE: QCHG

WEIGHT: 180 kg

DIMENSIONS: 1370mm Wide x 2345mm High x 305mm Long

The Q-Catch Head Gate is world-renowned as the most user-friendly manual catch ever developed. The Head Gate features a dual friction lock with infinite adjustments, single-lever operation, and opens to a full 762mm top to bottom. By offering superior animal control with the advanced auto-adjusting head gate technology that facilitates proper placement around the animal and the unique, user-friendly design, the Q-Catch Head Gate has redefined the possibilities of the manual catch head gate.

SPECIFICATIONS

- Patented locking mechanism
- Poly roller bushings give you years of hassle-free operation
- Single lever push-pull operation never requires adjustments
- Opens to a full 762mm top to bottom
- Auto-adjusting head gate technology
- Patented locking mechanism is backed by a lifetime guarantee

Arrowquip was founded in 1988 by the Firth family in Australia with the mission “To influence the livestock handling industry globally through the practical application of animal science and welfare standards, and increase producer safety and profitability with innovative equipment”. This inspiration came while working cattle on their family farm in Australia, due to the challenges they encountered with the lack of quality livestock handling solutions available to producers. As a forward-thinking family, they began to develop solutions to fill this gap in the market, and have been providing the high-quality livestock handling equipment farmers are seeking ever since.

Arrowquip is the only manufacturer to employ a full-time team of engineers dedicated specifically to livestock handling in our industry. Every piece of equipment we

develop undergoes an extensive development period in which our R&D Team exhausts every possible avenue to make our equipment the best it can be for farmers to work their livestock. As a result, our equipment is recognised worldwide as the most innovative and thoughtfully designed livestock equipment in the market today.

In the last 30 years, Arrowquip has become a world-renowned manufacturer of livestock handling solutions known for their innovative designs, technological advancements, investment in animal science, and forward-thinking equipment. Our years of research, equipment development process, extensive testing periods, and the refusal to settle for “good enough” have set a new precedent within the livestock industry.
