

ROLLING ALLEY GATE

PRODUCT CODE: RLDR

Arrowquip's new Rolling Alley Gate is the most effective, efficient, and easy to use Alley Gate ever seen in the industry. Featuring the off-side operation handle and an ergonomically friendly design, the Rolling Alley Gate adds versatility and control to your complete cattle handling system by allowing you to control the flow of cattle through the system. Arrowquip's Rolling Alley Gate is designed to integrate with the entire Arrowquip line of products, and is an essential piece of any modular cattle handling system.

SPECIFICATIONS

- Standard off-side operation handle
- Door can be operated from either side
- New sound dampening guides keep distraction to a minimum
- Top hung running track eliminates the issue of build-up
- Features a safety latch to lock the door closed
