

CATTLE SCALES & WEIGHING EQUIPMENT

CATTLE WEIGH CRATE, SCALE PLATFORM & SCALE MOUNT PLATES

WEIGH CRATE

PRODUCT CODE: WGCR

WEIGHT: 531 kg

DIMENSIONS: 749mm Wide x 2022mm High x 460mm Long

Arrowquip's Weigh Crate is designed to integrate with your complete cattle handling system to provide fast and accurate weigh-ins while moving cattle through the system. The adjustable width ranges from 762mm to just 432mm, simplifying the process of weighing cattle of any size. Sheeted steel sides reduce the risk of cattle injury, and the two rolling alley gates ensure you can manage your cattle quickly and safely through this essential section of your system.

SPECIFICATIONS

- Adjustable width from 762mm to 432mm
- Primed and powder-coated steel and the heavy-duty tubular frame ensure long-term durability of the equipment
- 1.63mm steel sheeting
- Designed to integrate into your complete cattle handling system

SCALE PLATFORM

PRODUCT CODE: WPFM

WEIGHT: 26 kg

DIMENSIONS: 826mm Wide x 81mm High x 2400mm Long

Arrowquip's Cattle Scale Platforms are custom designed to fit Gallagher and Tru-Test Load Bars. The .25" aluminum plates feature raised sides to reduce the risk of cattle injury from slipping off the platform. The Scale Platforms are designed to fit in the Weigh Crate.

SCALE MOUNT PLATES

GALLAGHER

PRODUCT CODE: SMP-GG

WEIGHT: 11 kg

DIMENSIONS: 777mm Wide x 61mm High x 152mm Long

TRU-TEST

PRODUCT CODE: SMP-TT

WEIGHT: 11 kg

DIMENSIONS: 776mm Wide x 83mm High x 184mm Long

Arrowquip's Cattle Scale Mount Plates are designed to stand up to the toughest tasks, as they are pre-engineered to support 584mm Race Load Bars when using the Scale Platform.

Arrowquip was founded in 1988 by the Firth family in Australia with the mission “To influence the livestock handling industry globally through the practical application of animal science and welfare standards, and increase producer safety and profitability with innovative equipment”. This inspiration came while working cattle on their family farm in Australia, due to the challenges they encountered with the lack of quality livestock handling solutions available to producers. As a forward-thinking family, they began to develop solutions to fill this gap in the market, and have been providing the high-quality livestock handling equipment farmers are seeking ever since.

Arrowquip is the only manufacturer to employ a full-time team of engineers dedicated specifically to livestock handling in our industry. Every piece of equipment we

develop undergoes an extensive development period in which our R&D Team exhausts every possible avenue to make our equipment the best it can be for farmers to work their livestock. As a result, our equipment is recognised worldwide as the most innovative and thoughtfully designed livestock equipment in the market today.

In the last 30 years, Arrowquip has become a world-renowned manufacturer of livestock handling solutions known for their innovative designs, technological advancements, investment in animal science, and forward-thinking equipment. Our years of research, equipment development process, extensive testing periods, and the refusal to settle for “good enough” have set a new precedent within the livestock industry.
